

Hybrid Recorder HR-700 series

More or Less? How about both!

More: Bigger display 18mm LED allows a high level of visibility

Less: Overall size Compact, lightweight: Ideal for small scale control panels

Compact: 150mm in depth, 1.5kg in weight

Available for small panel mounting

Communication interface

Corresponds to FA (factory automation) system via communication interface, RS-232C (standard) or RS-485 (option)

Larger LED display

LED size: 18mm in height

Dust-proof • Drip-proof (IEC529 IP65)

Stands up to even harsh environments such as food related plants and kilns

Safety standard

UL/C-UL and CE marking

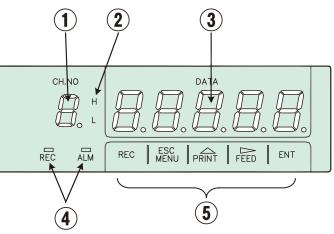

Model

HR-70 🗌 , 🔲 🗌			HR-700 (W144×H144×D150mm)		
Input point	1		1-point (Pen)	Multi-range system (Input types are selectable.)	
	2		2-point (Pen)		
	6		6-point (Dot printing)	(
Option		C5	Communication function (RS-485)		
		RE1	DI function (Pen)		
		RE6	DI function (Dot printing)		
		FL	Paper-empty detection function		
		LH3	Alarm output function (Pen)		
		LH6	Alarm output function (Dot printing)		

• When ordering, select the alphanumeric characters from the table above for ...

• When adding options, enter the code using a "comma".

Display and operation keys

①: Channel number display

Orange LED indicates Channel numbers 1 to 6.

2 : Alarm indicator

Red LED indicates the type of the alarm. [H] is lit when the alarm is High, and [L] is lit when the alarm is Low. Neither of them is lit when there is no alarm.

③: Data display

Indicates the process variable, date and year, chart feed speed or alarm value (orange).

④ : Status indicators

The [REC] (orange) is lit when recording. The [ALM] (red) is lit when the alarm is being activated.

$(\mathbf{5})$: Operation keys

Use these keys for setting and other operations.

Optional specifications

Communication function [C5]	Communication line: RS-485, Communication speed: 1200/2400/4800/9600bps
	Settable at 3 points (Maximum) Chart feed Start/Stop : Relay contact ON: Start Relay contact OFF: Stop
DI function	Changing chart speed : Changes 1st with tuning to ON and 2nd with OFF
[RE1] [RE6]	Comment printing : Prints comments with contact ON (Up to16 characters per line)
	Log printing : Prints with contact ON
	Date and time printing : Prints date and time with contact ON
Paper-empty	Detects the paper tray is empty, stops recording, and activates the alarm.
detection function [FL]	(When adding this option, [LH3] or [LH6] option needs to be added.)
	Output number
	Pen : 3 points (Built-in option, a contact)
Alarm output function	Dot printing : 6 points (Built-in option, a contact)
[LH3] [LH6]	Contact capacity : 250V AC Maximum 3A (Resistive load)
	30V DC Maximum 3A (Resistive load)
	125V DC Maximum 0.5A (Resistive load)
